

JARRAFF

By *Pinotti*

Self-leveling chassis, articulated steering, and wheels retractable from 10' to 42"; equals access to tight spaces and slope stability without outriggers.

J MINI-JARRAFF URBAN TREE TRIMMER

SAFER

Operator runs machine remotely and out of harm's way; with better visibility. Safety features like LED lights, fire extinguishers, and dielectric tested boom.

EASIER FASTER

Reduces trimming work to a one-person, one-machine job. Quickly and easily trailered and towed behind a ¾ ton pickup for maximum on-the-job time.

Performs many times the work daily than conventional methods like bucket trucks, lifts, and climbers. Most advanced, automated method for trimming available.

Fifty-five foot reach, 360-degree boom rotation, and 180-degree saw blade rotation enables unparalleled access for precision cutting to ANSI standards.

ACCURATE

PROFITABLE

Exceptional longevity and hours of use, low down time, ease of service, and low total cost of ownership. Forty-year reputation for parts and service response.

Ideal for trimming urban landscapes and residential neighborhoods. Sold direct to utilities, government, and contractors. Fully manufactured in the U.S. by woman owned Jarraff Industries.

FOR THE SMARTER WAY TO TRIM TREES

Mini-Jarraff FEATURES

The Mini-Jarraff's **MAINTENANCE-FREE BOOM BELT DRIVE SYSTEM** offers quiet operation, reduces downtime and requires only a periodic adjustment.

EPA compliant **74HP TIER4 DEUTZ DIESEL ENGINE** delivering increased power and performance more efficiently. Engine on demand ECO mode allows for even better fuel efficiency than ever before. No DEF required.

The Mini-Jarraff can easily navigate through difficult rural areas or urban locations. A **SELF-LEVELING CARRIER** allows the Mini-Jarraff to travel effectively on all types of terrain. Automatically adjusting legs narrow the machine's overall width to 48" and widen to 126" allowing the machine to work in the tightest of spaces, no outriggers required.

Mini-Jarraff FEATURES

Easy to use, ergonomically designed, **WIRELESS OPERATOR REMOTE CONTROL** with extended range allows the user to maintain a safe distance from machine during operation. **SCS (SAFEGUARD CONTROL SYSTEM)**

features include trip/fall protection, shutdown time, emergency hard link tether and body harness keeping operator safe and comfortable throughout day.

The unit offers **QUICK SET-UP** and a **DYNAMIC RANGE OF OPERATION** with extreme rotation and 15-degree manual leveling capability in all directions. The boom delivers a 55-foot vertical reach, providing **UNMATCHED CUTTING ABILITY**.

Patented **ROTATING SAW HEAD** rotates 180°, providing the operator unmatched cut quality, accuracy and speed. A specially designed tooth guard adds an additionally level of operator safety.
