POWERHOUSE MULCHER

Efficiency with higher HP and hydraulic flow; 90% more raw power than a forestry track loader delivered at the head, driving long-term production.

COMPACT, MANEUVERABLE DESIGN

Combines raw mulching power in a compact design with unmatched maneuverability to dominate challenging right-of-way while increasing productivity.

DURABLE AND RELIABLE SOLUTION

Engineered to run 8,000+ hours, more than 2x the lifespan of average forestry track loaders.

FUEL EFFICIENCY

Reduced fuel consumption and lower operating costs compared to similar powered units.

ROAD WIDTH ADVANTAGE

Fits the legal road width requirements*, eliminating the need for special permits when transporting.

* current US road width standards

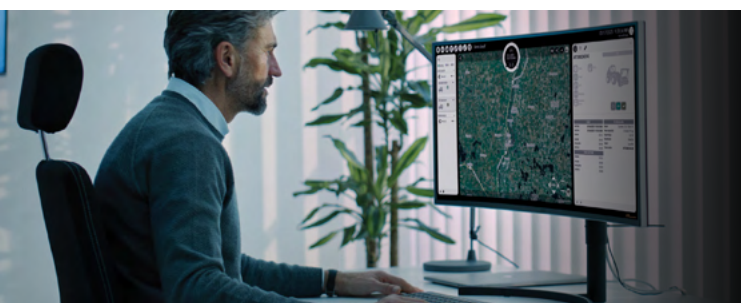

THE ULTIMATE CABIN COMFORT

The cabin is climate-controlled with heat and A/C while having an ergonomic design. The cab complies with the highest safety standards (ROPS/FOPS) and features LED lights and a backup camera.

* ROPS = Roll-over protective structure cab
FOPS = Falling object protective structure

A DRIVE STYLE TO MATCH YOUR TERRAIN

All T-Rex models come with wheels standard, or an optional upgrade to quad tracks. Both feature hydrostatic all-time 4-wheel drive and an articulated undercarriage to help you get anywhere the job takes you.
